4. First Aid Measures

Skin contact: Wash off with soap and water.
Eye contact: Rinse opened eye for several minutes under running water.
Inhalation: If breathed in, move person into fresh air. Consult a physician.
Ingestion: If symptoms persist consult doctor.

5. Fire Fighting Measures

Types of hazard: Dangerous fire or explosion hazard when exposed to heat or flame.
Hazardous combustion products: Carbon oxides.
Fire-fighting measures: Use fire extinguishing methods suitable to surrounding conditions.
Special Information: No information found.

6. Accidental Release Measures

Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Removal of ignition sources. Use non-sparking tools and equipment. Wear self-contained positive pressure breathing apparatus and anti-static clothes. Contain and recover liquid when possible. Avoid runoff into storm sewers and ditches which lead to waterways. In case of a small amount of release, absorb spill with inert material (e.g. vermiculite, sand or earth), as well as flush with plenty of water and dilute into the wastewater system. In case of great amount of release, collect spill with causeway or trench. A vapor suppressing foam may be used to reduce vapors. Place in suitable container or tanks by explosion-proof pump, recycle or ship to the waste plant.

7. Handling and Storage Measures

Handling: Closed operation and full ventilation. Keep away from fire and heat sources. Prohibit smoking in work area. Prevent vapors leakage into the work area. To be equipped with the appropriate type and quantity of fire-fighting devices and equipment for leakage emergency. Operating devices should be anti-static.
Storage: Store in a tightly closed container and place in a cool, well-ventilated storehouse. Keep away from heat, sparks, and flame. Keep away from sources of ignition. Storage areas should be equipped with handling equipments for emergency spill and suitable absorb materials.
